Safety Precautions

Solid Form

INHALATION: If adverse effects occur remove to uncontaminated area. Give artificial respiration if not breathing. If breathing is difficult, oxygen should be administered by qualified personnel. If respiration or pulse has stopped, have a trained person administer Basic Life Support.

SKIN CONTACT: Immediately flush contaminated areas with water. Remove contaminated clothing. Wash contaminated areas with soap and water. Thoroughly clean and dry contaminated clothing and shoes before reuse. If irritation occurs, get medical help.

EYE CONTACT: Immediately flush eye with a directed stream of water for at least 15 minutes

INGESTION: If victim is conscious and alert, allow to rinse mouth and then drink two cups of water. Never give anything by mouth to an unconscious person. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs spontaneously, keep airway clear. Drink more water when vomiting stops. Seek medical attention immediately.

For more guidance please consult the Safety Data Sheet

Dissolved Solution

Essentially non-hazardous
